

ATTACHMENT C

Methodology To Assess Available Transfer Capability

For all requests for firm or non-firm Transmission Service on Transmission Provider's system for which studies are necessary to assess whether sufficient transfer capacity is available to satisfy such request, available transfer capability (ATC) shall be assessed by the Southwest Power Pool (SPP) pursuant to SPP's methodology to assess ATC as set forth in Attachment C to SPP's Open Access Transmission Tariff, FERC Electric Tariff, Fifth Revised Volume No. 1, originally filed on September 11, 2007 and any amendments thereto, on file and accepted by FERC. See www.spp.org for the current version of SPP's ATC methodology.
