

Subject: Large and Small Generation Interconnection Procedure Cluster Open Window

Per Section 4.2.4 of Attachment V of the Tariff (SPP's Generator Interconnection Procedure), SPP announces the following changes to the Feasibility Queue Cluster Window, the PISIS Queue Cluster Window, and the DISIS Queue Cluster Window.

Beginning with the impact study windows that open for April 1, 2016, the closing date for impact study windows will change to November 30 and May 31 of each calendar year. Impact study windows will remain open for 180 days starting December 1, 2016.

Beginning with the Feasibility Queue Cluster Windows that open July 1, 2016, the closing date for feasibility study windows will change to November 30, February 28(29), May 31, and August 31 of each calendar year. Feasibility study windows will remain open for 90 days starting December 1, 2016 and closing February 28, 2017.
