Site Control (Not Required for Feasibility Study)

1. **Definition:** Site Control shall mean documentation reasonably demonstrating: (i) ownership of, a leasehold interest in, or a right to develop a site of sufficient size for the purpose of constructing the Generating Facility; (ii) an option to purchase or acquire a leasehold site of sufficient size for such purpose; or (iii) an exclusivity or other business relationship between Interconnection Customer and the entity having the right to sell, lease or grant Interconnection Customer the right to possess or occupy a site of sufficient size for such purpose.

2. Site Control Requirements: 30 acres per MW for wind; 6 acres per MW for solar, 1 acre per MW for battery storage

3. Site control tracks must be contiguous or have easement rights.

4. An example of site control would be land leases. If it is an existing plant, a copy of the property plant showing the property and the existing plant with documentation of the order or copy of the deed would suffice.

Attestation for Demonstration of Site Control form (required with all Site Control)
